

You Will Need (not included)

Turn the power off
before starting!

1 Before starting, please
read the guidance on
the back of this leaflet.

2 Drill holes and insert wall plugs. Line
up the bracket, thread cable through
and screw in place.

3 Screw the tensioners into the ceiling before adjusting the length, as shown
in the above diagram.

Trailing edge

DALI

Strip the cable

www.wago.nl
(for more info)

4 The above diagram shows two dimming options (DALI and Trailing Edge).
Strip 8-12mm of the cable, exposing the wires.
Insert the electrical cable into the wago connector and flip closed.

5 Connect the ceiling
canopy to the bracket
using 2 screws.

6 Fine adjust the cable using the side
screw. Adjust the tensioners as shown
above. **Your light is now ready to use!**

Thank you for your purchase!

Please read this manual carefully to ensure a safe and correct install of your light.

- The manufacturer is not responsible for damage caused by incorrect installation.
- Always turn the power off before installation, carry out maintenance or repairs.
- If in doubt, contact a qualified electrician.
- Keep light away from liquid or flammable objects.
- When installing, make sure cables are not crushed, damaged or corroded.
- If a cable is damaged, it must be replaced by a trained professional.
- This product contains an integrated LED light source, which can only be replaced within its 2 year warranty.

Assembled inside box
