THREE-CIRCUIT TRACK SYSTEM

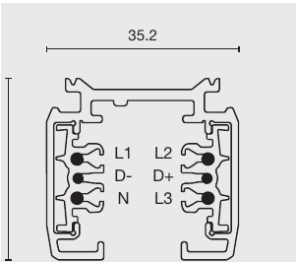

Faro Track System

FARO
Surface and suspended

Standard profile

DALI profile

Faro’s three-circuit (3-phase) track carries three separately switched circuits, so the lights on one track can be grouped and switched independently. It mounts on the ceiling or hangs on pendant kits, and takes Faro’s Fost, Linse, Blit, Via Evo, Stan and Leo track lights.

SPECIFICATIONS

System	Three circuits (L1, L2, L3), neutral and earth; DALI version adds a DALI control line
Voltage	220–240 V, 50/60 Hz
Maximum load	16 A in total (about 3,680 W)
Lights	Global-type three-circuit adapters; each light selects one circuit
Lengths	1 m and 2 m, can be cut to size
Profile	36 × 33 mm standard; 35.2 × 35.5 mm DALI
Material	Aluminium
Finish	Matt white or matt black
Mounting	Surface mounted with ceiling clips, or suspended with pendant kits
Fixing	Faro’s catalogue shows a clip within about 100 mm of each end and about every 400–450 mm
Protection	IP20, for indoor use

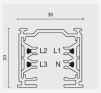

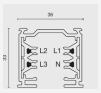

GOOD TO KNOW

Earth side	Faro track has the earth on one side, so live ends, L joints and T joints come in inner and outer versions.
DALI	DALI lights need DALI track and DALI connectors throughout. There are no DALI T or cross joints.
Configurator	Our Faro track configurator plans the layout and picks every inner and outer part for you.
