DESIGNED BY JAN TE LINTELO

Jan te Lintelo was born on 6 January, 1954, into a family of furniture retailers in Haaksbergen, in the eastern part of the Netherlands. Growing up surrounded by beautiful furniture, Jan understood the skills and craftsmanship required from artisans and designers. He went on to study furniture manufacture in Rotterdam, where he not only honed his creative skills but also learned about the business-side of the furniture trade. Practice makes perfect though, so Jan first joined the sales department of renowned, cutting-edge Dutch furniture brand Pastoe and then the equally renowned high-end Gelderland furniture factory. In 1994, he felt ready to spread his wings and started his own company, LINTELOO. He put everything he had learned—especially from customers—into designing his first collection. And he must have done something right, because decades later, Jan's first-ever design, the 'Easy Living' sofa, continues to be one of LINTELOO's best-sellers. Famous designers from all over the world have since designed for LINTELOO. But Jan himself also continues putting pencil to paper, brimming with ideas. His design characteristic remains the same throughout: the ultimate combination of generous proportions, comfort and style, executed by the best craftsmen in the business.

MAINTENANCE

All LINTELOO furniture has been made with lots of love and care. Of course, we want you to enjoy it, for as long as possible. Proper maintenance will prolong its lifespan, which is why each piece of LINTELOO furniture comes with a maintenance instruction booklet, also available for download at linteloo.com Detailed information on care and cleaning, including the recommended products, can also be found at linteloo-care.nl

Upholstery: Maintenance of the upholstery obviously depends on your choice of fabric or leather. As a rule of thumb, fabric upholstery—especially when removable—is easier to clean in case of spots and spills than leather. On the other hand, leather will handle regular wear and tear better, in a sense that the odd sign of use only adds to its character.
Cushions: Again, the level of maintenance depends on your choice of filling. Down/feather-filled cushions require regular plumping up and airing. But you may prefer the firmer seating experience and hypoallergenic qualities that a 100% polyester filling provides.
Legs: The occasional wipe-down with a damp cloth is all it takes.
