

**Material:**  
 PET Felt (polyethylene terephthalate)  
 Fireclass: EN13501-1 Class B  
 Produced in The Netherlands

**Fixture:**  
 2 meter black PVC cable with floor switch and europlug

**Lighting properties:**

-  E27  
Lightbulb excluded
-  IP20

**Acoustic properties:**

-  5,67 m<sup>2</sup> of acoustic absorption material of  $\alpha_w$  0,45
-  Diffusion by design

**Dimensions:**

**Total weight gross | net:** 8,5kg | 7,8kg  
**Parcel size:** 760x760x1100mm  
**Mounting:** Free standing

**Colors:**

**Acoustic specifications:**

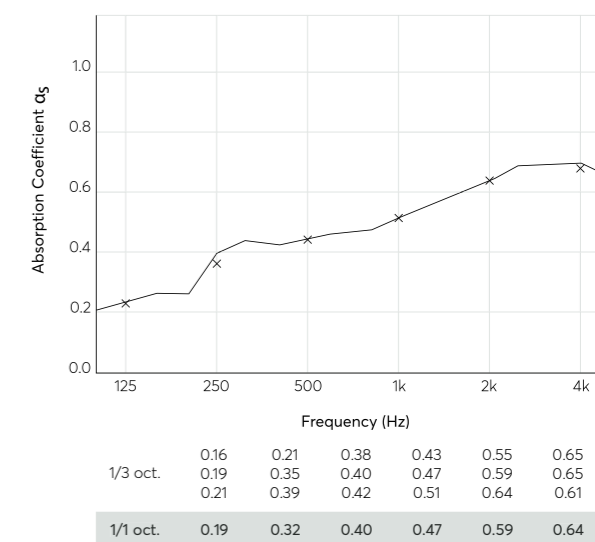

The acoustic design principle.

Pyknic is an acoustic standing light designed for larger open spaces where soundwaves travel freely. It effectively reduces reverberation time, improving overall sound quality.

Ideal for placement in corners or near hard surfaces, Pyknic also functions as an efficient bass absorber in noisy environments.

**Calculated acoustic surface area:** 5,67 m<sup>2</sup>

**Suspended 9 mm PET Felt tested to ISO 354:2003.**

**$\alpha_w$  (ISO 11654) = 0,45**  
 SAA (ASTM - C423) = 0,45
