CELEBRATING
30 YEARS OF
ILLUMINATION

ABOUT PABLO DESIGNS

Pablo’s designs have been propelled to the forefront of American contemporary lighting by an uncompromising devotion to simplicity and utility. By fusing the highest technical sensibilities with the most appropriate material palette, Pablo is able to create unique, timeless designs with the power to transform any environment. Pablo was founded in San Francisco in 1993 by Venezuelan born industrial designer Pablo Pardo. Embracing a less-is-more ideology, Pablo frequently challenges traditional design metaphors, developing more practical solutions distilled down to their essence, form and light. A common thread links all of its creations, valuing permanence and sustainability, discarding the disposable mindset so prevalent today. Its mission is to create designs that deepen the relationship between objects, their users, and their environments.

FOUNDER / CREATIVE DIRECTOR

Pablo Pardo

With the creation of his first product in 1993, Pablo established a powerful and generative design philosophy. Since then, his core principles have informed the development of every light in the studio’s 30-year history. These products continue to move with culture while withstanding trends in design and each one carries the underlying uniqueness that is distinctly “Pablo.”

DESIGN COLLABORATIONS

John August

Located in San Francisco, August is a furniture and product designer. As an accomplished craftsman and machinist he employs a hands-on approach to the design and engineering of objects, always in pursuit of the space between art and function. Equally at home with traditional hand tools, 3D modeling software, or advanced CNC machinery, August explores the stillpoint between the deep soul of the hand-made with the precision of quality mass-production.

Brad Ascalon

Brad Ascalon’s multidisciplinary Manhattan studio was founded in 2006. With a reductive approach to his craft, Ascalon believes in design that is uncomplicated, rational and manages to find the perfect balance of form, function and concept. Ascalon’s work has been exhibited around the world, and in 2013 he was singlehandedly invited to represent American design with an installation at Moscow Design Week. Ascalon earned a Masters’ degree for Industrial Design from New York’s Pratt Institute in 2005, and that same year was recognized by Wallpaper magazine as one of the “Ten Most Wanted” emerging designers in the world. He attributes his passion for design to the two generations before him who instilled the value of craftsmanship and rigor.

Carmine Deganello

Based in Amsterdam and Milan, Deganello’s creative process begins with materiality and an empirical approach that is highly experimental. Research on materials and the ways in which they can unexpectedly drive the productive process is essential to his work. His work includes: Solis, Uma, Talia, and T.O, all of which demonstrate his shared sensibilities and long-term collaboration with Pablo. Deganello has worked extensively in Europe as well as the United States, his projects have been presented, among others, at the Triennale Design Museum as part of the New Italian Design collection. He is a graduate of Florence’s Instituto Superiore per la Industrie Artistiche.

Fernando Pardo

Since lending his craftsmanship to companies such as Sony, Dell, Embraer, Compaq, Pablo, BMW, and others, Pardo has been internationally recognized as a leading design thinker. His “Gina” car for BMW won the “Concept Car of the Year” award in 2008, and, in addition to being showcased in the BMW Museum in Munich, continues to serve as the foundation for the company’s contemporary auto designs. Most recently Pardo received a 2012 Red Dot Award for his lamp, PIXO, which he created with his twin brother, Pablo founder Pablo Pardo. Fernando is a graduate of the design program at the University of Cincinnati.

Peter Stathis

Fascinated by the social and cultural dimensions of objects, Stathis’ work seeks to foster meaningful relationships through today’s sophisticated, mass-produced environment. He executes this goal by working in both the high-minded and popular realms, having designed for brands ranging from the Museum of Modern Art to Lava Lite. Stathis’ original 2006 Tube Top lamp represents one of several contributions to Pablo.

Pablo Studio

The Pablo Studio is a small group of makers and inventors with a diverse background in industrial design and craft, and a deep understanding of manufacturing, materials and technology. They aim to foster a sense of discovery and deeply personal utility in people’s interaction with objects. In beginning a new project, the team isolates a concept, meticulously refines it, and then reduces it to its central principle. The studio requires each design element to contribute to the essence of an object, following the Pablo philosophy of “less is more.” Pablo Studio works together to develop products that offer people unique experiences and broaden the field of lighting design.

BEL OCCHIO

"Bel Occhio is a study in weightlessness and transparency," notes designer Pablo Pardo on his inspiration for this luminaire. "It evokes nature's transformative light." His piece manifests the celestial through a hybrid design: its suspended, inner column creates focused illumination while its surrounding shell produces a transformative ambient glow. These symbiotic elements enable Bel Occhio to act as a multi-position spotlight and a source of atmospheric tenor. They also serve dynamic purposes: Bel Occhio is built as an infinitely adjustable table lamp and a suspended pendant model. Both elements serve to illuminate with comfort and fascinate the imagination.

BELMONT

The Belmont Collection was a collaborative creation with designer Brad Ascalon. Re-envisioning the traditional fabric shade lamp, but with the warmth and preciousness of hand crafted furniture. Belmont's iconic, yet reductive form creates a natural canvas for displaying an exquisite array of textiles from premium wool to colorful woven fabrics that can be paired with a solid crafted oak wood armature. Belmont Pendant can be hung individually or in stunning groupings to provide warm and comfortable illumination to complement any residential, contract, or hospitality setting. Belmont is also available in stunning table and floor standing models to bring warmth and beauty to any environment.

BOLA DISC

Bola Disc is a uniquely expressive LED Lighting system featuring a distinctive range of chromated disc reflectors that give the illusion of weightlessness by mirroring its surroundings. Bola Disc pairs an elegant globe diffuser made of opaline glass with exquisitely polished stainless steel or aluminum discs in chrome, brass, rose gold, gunmetal, lacquered white, and matte black to appease the most discerning tastes. Dependent on size, Bola provides up to 1625 lumens of warm ambient light and is fully dimmable, providing unparalleled illumination. Bola can be suspended individually, in series, or as striking chandelier groupings for residential, contract, and hospitality settings alike.

BOLA DISC MULTI-LIGHT

DESCRIPTION

Bola's elegant reflective disc and globe design can be suspended in a variety of custom arrangements in both round and linear configurations. With Bola Disc Multi-Light, up to 11 lamps can be grouped together in a variety of mixed disc sizes to form stunning luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample cord length of 8.9' (2.7m) to offer a wide array of unique solutions.

BOLA DISC FLUSH

DESCRIPTION

A study in refined simplicity, Bola Flush offers a magical combination of mirror and globe refined down to its bare essentials. The objective with the Bola Flush is to provide both direct and reflected light from either ceiling or wall mounted vantage points. Bola Flush brings elegance and refinement with four sizes and five finishes in chrome, brass, rose gold, gunmetal, white, and matte black. An ideal fixture for adding diffused and reflected light in hallway corridors, nooks, dining settings, bedrooms, or living areas. Stunning groupings can also be created by mixing different sizes together to form unique custom light displays.

BOLA FELT

Bola Felt's charmingly expressive felted shade hat features a soft and pliable conical structure with 2 colored layers of undulating wool inside and out. It is available in 4 distinct sizes: 24" (61 cm), 32" (81 cm), 42" (107cm), and 52" (132cm). Its shade rests elegantly over its opaline glass globe diffuser allowing the user to tilt the shade to multiple angles to focus light while taking on various relaxed personalities in the process. Bola Felt casts unparalleled illumination boasting up to 1625 lumens of warm and dimmable LED light that runs cool to the touch. Bola can be suspended individually, or in spectacular groupings to become the centerpieces of any space. Bola's thick felt shade also offers excellent acoustic dampening benefits making them perfectly suited for use over dining applications as well as social gathering areas where sound control is beneficial. Ideal for residential, lounge and hospitality spaces alike.

Designer:
Pablo Pardo + Pablo Studio 2018

BOLA FELT

DESCRIPTION

Bola Felt is a uniquely expressive pendant light that features an undulating 100% wool felt shade that's adjustable to focus light to any desired direction. Bola Felt's acoustic properties provide excellent noise dampening characteristics that are perfectly suited for dining areas or quiet zones in the workplace. The shade is available in 4 distinct sizes: 24" (61cm), 32" (81cm), 42" (106cm), and 52" (132cm) with mating opaline globe diffuser sizes: 6" (15cm), 8" (20cm), 10" (25cm), and 12" (30cm) diameters. Bola Felt casts up to 1625 lumens of warm ambient light and is fully dimmable to set the ambiance.

BOLA HALO MULTI-LIGHT

DESCRIPTION

Bola Halo's elegant ring and globe design can be suspended in a variety of custom arrangements in both round and linear configurations. With Bola Disc Multi-Light, up to 11 lamps can be grouped together in a variety of mixed disc sizes to form stunning luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample cord length of 8.9' (2.7m) to offer a wide array of unique solutions.

BOLA SPHERE

Bola Sphere is the basic foundation of the Bola Collection. Bola Sphere Pendant features an elemental interplay between post and sphere with a seductive opal blown glass shade available in 6 distinct sizes: 4" (10cm), 5" (13cm), 6" (15cm), 8" (20cm), 10" (25.5cm), and 12" (30.5cm) paired with a polished steel post in chrome, brass, rose gold, gunmetal, and matte black finishes with mating canopies. Bola Sphere Pendant can also be suspended in exquisite Chandelier groupings that allow mixing of globe sizes for stunning displays in any residential, contract or hospitality settings alike. The Bola Sphere Table brings equal ambiance and elegance to a table surface combining 3 Globe sizes: 8" (20cm), 10" (25.5cm), and 12" (30.5cm) diameters paired with proportioned chromated stainless steel disc reflectors in chrome, brass, rose gold, gunmetal, and matte black finishes. Bola Sphere Table offers full range dimming light control to create the perfect setting for bedside or living areas.

BOLA SPHERE TABLE

DESCRIPTION

The Bola Sphere Table series fuses an elegant blown opal glass sphere with a mirrored disc base in polished stainless steel to give the illusion of a floating orb in space. Taking its cues from the Bola Family Collection, the new table version brings this magical combination to a table surface, allowing for full range dimming and is available in 3 distinct globe sizes: 8” (20cm), 10” (25.5cm), and 12” (30.5cm). Its mating base is available in 3 corresponding diameters : 9.5” (24cm), 12” (30.5cm), and 14” (36cm) in 4 exquisite finishes: chrome, brass, rose gold and gunmetal. Each finish provides a distinct personality for any residential, contract, or hospitality environment.

BOLA LANTERN

Based on the Bola Sphere Table 8, the Bola Lantern adds a premium leather handle and a rechargeable battery that enables a level of portability new to the Bola Family. Bola Lantern's size and stature give a sense of presence that is unfound with portables, while maintaining the lightness associated with the floating orbs that are Bola. Discs are available in chrome, brass, gunmetal, and matte black. The leather handles are available in a natural vegetable tanned leather and black. Battery life ranges from 10 - 400 hours depending on light intensity. Bola Lantern produces 280 lumens of warm ambient light.

BRAZO

Fusing breakthrough LED technology with a uniquely tactile and calibrated light control experience, Brazo is an intelligent, precise and effortlessly adjustable task lamp. A user can tune it to any beam spread, brightness and direction, controlling the volume and focus of light. The aluminum shade on the lamp's arm enables much of this adjustability, enabling the user to fluidly dial it around the light source to guide the beam in any direction. Although suitable for any environment, the versatility and 360° adjustability offered in its minimal frame makes Brazo ideal for use in work environments. Brazo transforms from table to floor model with a simple extension post and ships flat-packed for easy transport.

Designer:
Pablo Pardo 2007/2008

Awards:
2008 IDEA Gold Award
2007 Best of Neocon Gold

BRAZO TABLE

CIELO PLUS

Through its minimal form and glare-free, flat panel LED technology, Cielo enables light to act as its expressive element and defining feature. Its finish palate also works to this end, underscoring the lamp's simple structure and exalting its light. Cielo's classic shape integrates into any environment, regardless of style, and it can be suspended individually, in a series or as a chandelier to provide warm and balanced illumination. The larger the grouping, the bolder the display. Cielo offers a full dimming range and is composed of energy efficient LEDs rated for up to 50K hours. Now available in brand new Hi-Bright model boasting 930 lumens of glare free illumination.

CIELO XL MULTI-LIGHT

DESCRIPTION
Cielo XL's stunning machined aluminum design can be suspended in a variety of unique custom arrangements with both round and linear canopy solutions. With Cielo XL Multi-Light, up to 9 lamps can be grouped together in a variety mixed sizes to form impressive luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample height adjustable cord length of 10' (304cm) to offer a wide range of unique custom configurations.

CIRCA

In designing Circa, the Pablo Studio designers wanted to create a product that was revolutionary yet familiar. They not only created a new lamp, but also a new archetype for indoor lighting – one that blurs the boundary between the utilitarian work lamp and traditional shaded lamp. Circa's defining feature is a flat-panel LED disc that moves fluidly above its axis point. This mobility allows the lamp to assume an infinite number of positions while functioning as a task lamp that provides balanced, ambient light. Circa also supports a user's mobile devices by integrating a USB charging port on the table, grommet, and floor models.

ELISE

Elise is a conceptual tribute to the machine age: streamlined, understated, and honest in its function as a light source. Celebrating the most classic of industrial forms, the cylinder, two elements compose the lamp: a refined aluminum or marble base conceals the light source, providing ample ballast, while its towering frosted acrylic diffuser becomes a beacon of light. Its confident, geometric simplicity enables it to comfortably inhabit a diversity of spaces. Elise offers a full dimming range and is available in heights ranging from 12" to 80".

Designer:
Pablo Pardo 1998/2019

LANA TABLE

DESCRIPTION

Inspired by a fusion of craft and advanced manufacturing, the Lana series is designed to adapt to any space. Lana is comprised of a unique magnetic felt shade that provides limitless attachment possibilities. The new collection debuts with a magnetic LED module which guarantees maximum freedom allowing the light to be attached to any ferrous surface bringing three distinct personalities: wall, table, and floor (with adjustable pedestal).

FIXTURE TYPE

Table

LIGHT SOURCE

LED High-Output chip on board

LIGHT CONTROL

Full range dim control 100%-10% (optical switch)
2-stage step dim (100/40%)

FEATURES

360° shade rotation
Unlimited height adjustability
Magnetic attachment

SPECIFICATIONS

Voltage: 120-240V 50-60Hz
Power consumption: 5.5W
Color temperature: 3000K
Luminosity: 350 Lumens
Luminaire efficacy: 64 Lumens/Watt
Color Rendition Index: 90+ CRI
50K Hour lifespan
Cable length: 9' (274cm)

LIM360 | LIM

A study in reductionism, LIM is not so much a lamp as it is a conduit of light. Its minimalist form shapes a plane of illumination powered by an equally minimalist light source — a continuous array of high-output, energy-efficient LEDs discreetly concealed in its armature. Along with a slim, rotatable arm that enables the user to redirect the light, LIM employs a magnetic attachment system that makes it effortlessly portable and adjustable. LIM is available in up to five different form factors enabling tabletop, floor, and undersurface mount applications.

Designer:

LIM: Pablo Pardo 2009

LIM360: Pablo Studio 2012

Awards:

2010 iF Product Design Award

2009 Best of Neocon Silver Award

LIM TABLE

DESCRIPTION
LIM is a revolutionary ultra-slim LED task light that is as fun to use as it is functional. LIM’s “L” shaped arm discreetly conceals an array of high-output LEDs and utilizes a magnetic attachment system for effortless adjustment. LIM is available in four models: LIM table, LIM floor, LIM360 and LIM C under-surface.

FIXTURE TYPE

NIVÉL PEDESTAL

At the intersection of functional lighting and furniture, you find Nivel. As an adjustable height side table, Nivel provides a totem to gather around. Portable and rechargeable, Nivel enables users to bring light to areas not serviced by power outlets. Sturdy enough to rest a few beverages atop while nimble enough to be raised or lowered at a moment's notice. Its cleverly designed light module rests securely fastened around a solid wood post fastened to a powder-coated steel base for added footing. A soft ambient downward facing light panel completes the package, bringing an unobtrusive light source to your home or office space. The post is offered in both solid oak and walnut and can be paired with a powder-coated tray in white, terracotta, and black.

NIVÉL TABLE AND FLOOR

At the intersection of functional lighting and furniture, Nivel brings warm and dynamic illumination to any residential, hospitality or work space. The Nivel portable collection consists of rechargeable, battery powered table and floorstanding lights that allow for freedom of movement to bring light to areas not serviced by power outlets. Perfect for indoor and outdoor entertaining, Nivel instantly becomes the focal point of any social gathering and can be easily toted by its solid wood post handle. Its cleverly designed shade/light engine assembly can be easily raised and lowered to any desired height around its crafted wooden post to provide maximum light control depending on user preference. Nivel table and floor shades are offered in 6 painted colorways: matted white, terracotta, forest green, slate blue, espresso and textured black and can be paired with either a white oak or walnut post. LED light engine features glare free flat panel light technology with best in class battery life of between 8-160 hours depending on light level.

NIVÉL PENDANT

Redefining the future in pendant illumination, Nivél's pure and elegant silhouette features a colorful pallet of spun shade forms combined with an articulating flat panel LED light engine that pivots gracefully on axis to focus light downward or as a wall wash to provide seamless light control for any space. Nivél pendant can be suspended individually or in large multi-light clusters powered by a single hardwired canopy allowing the user to reposition the lights to any desired height, span and directionality. Available in 2 sizes: 15"(38cm) and 22"(56cm) and 6 powder coated finishes in matte white, Terracotta, Forest Green, Slate Blue, Espresso and textured black with choice of black or white fabric cord and ceiling canopy. Nivél is also available in flush-mount variations for both sizes.

PICCOLA

As his very first product, Piccola is the original embodiment of Pablo Pardo's "less is more" design philosophy. Created as a personal utility lamp, Piccola's form is minimal, but also tactile, playful, and inviting of interaction. Supple Italian glove leather covers its soft, pliable base, which a user can tilt to any angle while its aluminum shade floats to remain level. It is this malleable base that maintains Piccola's sensitivity to any position - sensitivity intended to make every articulation organic and personal. Piccola is part of the San Francisco Museum of Modern Art's permanent collection.

Designer:
Pablo Pardo 1993

Awards:
1993 ID Magazine Gold Award
SF MOMA permanent collection

PICCOLA

DESCRIPTION
Piccola is limited only by your imagination. Its soft pliable base is covered in supple Italian glove leather and can be tilted to any angle while its hand-spun aluminum shade floats freely to remain level in all positions. It is as playful as it is intelligent. Piccola is part of the SFMOMA permanent collection.

PIXO

Although it embodies an emotive, humanistic form, Pixo, at its conceptual core, is an ultra-efficient task light. Functionality and necessity drive its design. It makes the most of its frame and its space through every feature: Pixo's swiveling light shade and highly maneuverable arm lend it maximum utility within a minimal footprint. Its compact, energy-saving LED light is infinitely adjustable, allowing the user to focus warm, glare-free light wherever needed. For added convenience, the elegant form factor features full-range dimming via its easy to use optical switch. The base integrates ultra-convenient wireless charging technology + USB port for the ultimate task lighting experience. Even more, the upper and lower pieces ship detached from one another to reduce packing materials and shipping costs. Pixo Plus is 97% recyclable. Pixo is also available for wall mount application and features only a USB charging port.

SOLIS

In creating Solis, designer Carmine Deganello set out to engage with light in its archetypal form: the sun's rays. The resulting piece is an engaging blend of light and shadows, casting shimmering rays and radiating patterns onto a space. The effect is a sense of weightlessness — and a redefined environment that invites a new kind of relationship with the light source. A suspension lamp made of lightweight polyester fabric and stainless steel, Solis can be used as a pendant or hung from a wall.

Designer:
Carmine Deganello 2009/2010

SOLIS PENDANT

DESCRIPTION

Solis is an innovatively simple and elegant suspension lamp that can be used as a pendant or hung from a wall to create a distinctive ambiance. The resulting piece is an engaging blend of light and shadow, casting shimmering rays and radiating patterns onto a space.

SOLIS DRUM

The new Solis Drum Pendant is the latest addition to the elegant Solis suspension family. Featuring a uniquely engaging blend of light and shadow, Solis Drum is made of laser cut polyester fabric combined with an aluminum top and bottom ring construction that allows the shade to hang under tension. Solis Drum also employs a stunning LED dome diffuser that spans the diameter of the top ring, radiating light down and sideways to cast shimmering warm patterns onto the space that surrounds it. The effect is a sense of weightlessness that invites a new kind of relationship with the light source. Perfect over a dining table, an entryway or in large groupings.

SUPERLIGHT

Superlight balances the demands of both workplace and home with a combination of minimal form and maximal function. Superlight is a task light reduced to its essence. A gestural line in space resulting in a precise yet playful structure defying gravity with an appearance of near weightlessness. Superlight achieves fluid, sweeping movement in every direction with a full 3-axis range of motion providing warm, glare-free LED light exactly where you need it. Superlight is available as a desk, floor, wall, clamp or grommet mounted fixture.

SWELL/SWELL XL

Elegant and infinitely flexible, Swell is a modular LED lighting system designed to seamlessly blend the line between indoor and outdoor lighting. Formed from spun aluminum, Swell's 3 shade designs pair fluid, undulating lines with a radiant brass interior and can be mixed and matched to create dynamic groupings. Swell can be suspended individually, as a chandelier or as inter-connectable shade strings to perfectly complement residential, commercial, lounge and hospitality settings alike. Swell is also available in stunning XL sizes for spaces that demand exceptional scale.

T.O

T.O celebrates and reinforces the importance of light as a pillar of our daily life. A monolithic column stands to support a horizontal and vertical line of light to provide precise light control in all directions. T.O embodies a harmonious dialogue between solidity and lightness offering unlimited contexts for use in residential and workplace environments, all within a minimal footprint. T.O features a fully dimmable LED light source with tactile push switch appropriately positioned at the end of arm. Both table and floor versions feature a magnetically attached light arm over a marble cylinder base while the light wand can be rotated up to 360 degrees to provide both direct and indirect light for task and ambient lighting needs alike. T.O is offered in 2 marble base finishes in Marquina black and Carrara white while the light arm is elegantly contrasted in polished surfaces in brass and chrome. T.O is a seamless integration of functional lighting and sculpture.

TOTEM

Totem is a versatile pendant lighting collection comprised of exquisitely blown opal glass shades designed around a modular platform. Totem's soft, pure white geometric forms provide a charming interplay of unique combinations to provide warmth and elegance to any space. Users can select from 4 shade styles (A,B,C,D) to mix and match to create an ensemble of 20 unique pendant combinations. Totem provides both direct and indirect illumination by employing a two-part LED light engine that provides both uplight and downlight resulting in a warm and dimmable ambient glow projecting through its softly diffused glass structure. Totem singles can be used in flush mount down-light only scenarios as well.

Totem’s soft, pure white geometric forms provide a charming interplay of unique combinations to provide warmth and elegance to any space. Users can select from 4 shade styles (A,B,C,D) to mix and match to create an ensemble of 20 unique pendant combinations. Totem provides both direct and indirect illumination by employing a two-part LED light engine that provides both uplight and downlight resulting in a warm and dimmable ambient glow projecting through its softly diffused glass structure. Totem singles can be used in flush mount down-light only scenarios as well.

TUBE TOP

Tube Top comfortably abstracts the classic, domestic lamp silhouette to suit any style of interior. As designer Peter Stathis remarks, "Pablo is well known for their rigorously minimal products, and my goal was to augment that range by introducing a new light that applies a modern sensibility to a traditional lamp type." Playing with that traditional form, Tube Top combines a transparent, sculpted acrylic base to support its lightweight mesh shade in tension, allowing the shade to appear to float freely. Tube Top is available in multiple table and floor models.

Designer:
Peter Stathis 2006

TUBE TOP TABLE

DESCRIPTION

A minimalist statement in form and proportion, Tube Top combines a transparent formed acrylic base to support its elegant mesh fabric shade in tension, steering away from conventional modes of construction. Its lightweight shade appears to float freely, gently tethered by its fabric cable. Tube Top is available in multiple table, floor and pendant models.

UMA

The revolutionary UMA Sound Lantern redefines the portable lantern for the modern age. Fusing state-of-the-art Warm Dim LED technology with 360° high fidelity surround sound, UMA provides a one of a kind portable light + sound experience, integrated seamlessly into a strikingly elegant design. UMA pairs touch sensitive volume control with an intuitive full-range light control dial and features Bluetooth connectivity to stream the highest quality audio wirelessly from any mobile device. A premium leather strap allows for easy portability, and a protective jacket allows UMA to go anywhere you want to go. Invoking the primal symbol of the lantern and the warmth of a campfire, UMA is the perfect centerpiece for social gatherings and intimate moments indoor and out.

UMA MINI

DESCRIPTION

Introducing UMA Mini, the newest addition to the UMA family, now more portable than ever to travel with you anywhere you go. The revolutionary UMA Mini lantern takes all its cues from its big sister UMA, fusing state-of-the-art LED technology with 360° high fidelity surround sound, while boasting a party mode feature that allows for pairing up to 24 units simultaneously via Bluetooth to create the perfect ambiance. UMA Mini also features touch sensitive volume control and 2 soft light level setting to set the perfect mood. Invoking the primal symbol of the lantern and the warmth of a campfire, UMA Mini is the perfect centerpiece for social gatherings at home, restaurant lounges, and any outdoor setting.
